<b>Total</b>	<b>1,768,021</b>	<b>6,256</b>	<b>1,948,102</b>	

*\*We are 99 percent complete with Irma-related outages in these counties. Crews will continue to work until all remaining, isolated and scattered outages are restored. In some cases, service may be delayed in areas impacted by tornadoes, heavy tree and debris damage, and where a meter or other customer equipment was damaged and requires repair and an inspection.*

*This does not mean we will have restored 100 percent of all customers. We will continue to work to restore isolated and scattered outages, including customers who cannot receive power due to damage to their meter boxes. We will continue to keep our resources in these areas to work on cleaning up any isolated and scattered outages until all customers are restored*

*\*\*\*Note: Outage numbers may fluctuate as restoration efforts continue and new outages are reported not related to Hurricane Irma.*
